MOROCCAN SAVON BELDI

Moroccan Black Soap is a vegetable soap paste made from the oil and the peels of pressed olives.

NO SLIPPING IN THE BATH TUB

You can use it in any way you would usually use soap - it isn't very sudsy. If you want to get the best advantage from the gentle exfoliating power: Apply a thin layer to skin that has been steamed in the shower, let it sit 5-10 minutes, then scrub off. The magic of this soap is the humic minerals from the olive peels that condition the skin and boost elasticity.
